Meeting Minutes – 29.01.2015

Attendees:

- Ine (TA)

- Alvaro

- Julius

- Carlos

- Matt

1. Introduction

Participants introduced themselves and shared their relevant experience related to the project.

2. Work Methodology

- **User Stories:** Each feature must be described with a user story and a corresponding test. This must be included in the report.

- **Sprints:**

  o Features should be prioritized, as some depend on others.

  o Example: A user must be able to log in before performing other actions.

  o Each sprint should include three precise features and one broader feature.

  o Sprint duration: 2 weeks.

3. User Stories and Features

User

- **Check availability:** A user should be able to check the availability of books.

- **Borrowing limit:** A user cannot borrow more than three books at the same time.

Librarian

- **Manage books:**

  o Create new books in the system.

  o Edit existing book details.

  o Handle multiple copies of the same book.

Administrator

- **User management:**

  o Create new librarian user accounts.

  o Ban users from the library or restrict their borrowing privileges.

- **Categorize books:** Manage book categories for better organization.

4. Requirements

- **Borrowing period:**
  - Books must be returned within two weeks.
  - Users should receive notifications about how many days remain in their loan period
